- **Analytics & AI Tools:** Google Analytics 4 (GA4) Fundamentals, ChatGPT Content Research, Canva Pro, Marketing Reporting

PRACTICAL PROJECTS & PORTFOLIO CASE STUDIES

Photo & Video Editing Blog | Content Marketing & SEO Practice

- Conducted in-depth keyword research and search intent clustering around photo/video editing workflows and tools.
- Engineered SEO-compliant content architecture with optimized H1-H3 headings, meta titles, descriptions, and alt tags.
- Developed visual content calendar and promotional distribution plan to maximize organic search discovery.

SEO Website Optimization Audit | Search Engine Optimization

- Executed simulated technical and on-page SEO audit identifying meta description gaps, heading structures, and duplicate tags.
- Built comprehensive keyword mapping and internal linking framework targeting high-intent commercial keywords.
- Formulated actionable content optimization recommendations to improve crawlability and user engagement metrics.

Social Media Content Strategy | Social Media Marketing

- Defined comprehensive target audience persona and crafted 4 core content pillars (Educational, Engagement, Promotional, Proof).
- Designed 7-day multi-platform posting calendar with visual mockups created in Canva and tested catchy hook variations.
- Engineered hashtag research methodology and proactive audience engagement protocol.

Digital Advertising Campaign Concept | Paid Ads (Google & Meta)

- Designed full-funnel digital campaign concept with distinct awareness, consideration, and conversion ad sets.
- Drafted A/B ad copy variations tailored to demographic personas and planned mock budget allocation across channels.
- Established KPI measurement roadmap focusing on CTR, CPC, conversion event tracking, and return on ad spend.
