- **Analytics & Marketing Tools:**Google Analytics 4 (GA4) Fundamentals, Google Keyword Planner, WordPress (CMS Basics), Performance Reporting & Traffic Summaries, Competitor Research

PRACTICAL MARKETING PROJECTS & CASE STUDIES

Website SEO Optimization Audit & Keyword Strategy — *Self-Initiated Portfolio Case Study | Search Engine Optimization*

- Executed simulated technical and on-page SEO audit identifying title tag lengths, meta description gaps, heading structures, and duplicate tags.
- Built comprehensive keyword research mapping matrix targeting informational and commercial search queries using Google Keyword Planner and Trends.
- Formulated actionable content optimization recommendations and internal linking architecture to enhance crawlability and user engagement metrics.

Photo & Video Editing Blog Strategy — *Self-Initiated Portfolio Case Study | Content Marketing & SEO Practice*

- Researched long-tail, low-competition keyword clusters and search intent around mobile video editing apps (CapCut, Premiere Rush, Lightroom Mobile).
- Structured SEO-compliant blog pillar articles with semantic heading hierarchy (H1-H3), optimized meta tags, bullet points, and image alt text.
- Designed cohesive visual graphics, educational multi-slide carousels, and promotional templates in Canva to maximize organic reach and shares.

Multi-Pillar Social Media Content Strategy — *Self-Initiated Portfolio Case Study | Social Media Marketing*

- Engineered a 7-day multi-platform posting calendar organized across 4 strategic pillars: Educate (Carousels), Inspire, Engage (Polls), and Convert.
- Authored high-converting headline hooks, value-packed captions, and clear calls to action (CTAs) tailored to target creator personas on Instagram and Facebook.
- Designed ready-to-publish visual templates in Canva and established proactive community engagement and hashtag research methodologies.

Full-Funnel Digital Ad Campaign & Email Marketing Blueprint — *Simulated Portfolio Campaign | Paid Advertising (Google & Meta) & Email Nu*

- Constructed a multi-stage campaign blueprint balancing Google Search intent capture with Meta Ads visual discovery and retargeting reserves.
- Drafted A/B split-test ad copy variations addressing audience pain points versus direct benefits, defining CTR and CPC performance benchmarks.
- Designed an email marketing lead nurture sequence outlining automated welcome emails, educational value delivery, and conversion touchpoints.
